

# EEE3099S Weekly Review Report

## **Week Ending**

04/08/2023

## **Group Members:**

Student Name	Student Number
Ankush Chohan	CHHANK001
Jack Younes	YNSJAC001
Jake Wesselink	WSSCAR008

## **Project Status**

### **Accomplishments:**

- Read through the project description.
- We all downloaded the Arduino software for Simulink.
- We started working on milestone 1 and populated the report.
- Some line-following functionality has been coded for, and the wheels turn in different directions depending on which sensor is triggered.

### **Issues**

- One of the wheels was not turning. The error was eventually found and fixed.

### **Upcoming Tasks**

- Completion of Milestone 1
- Get the proximity sensor running
- Get the distance sensor running

### **Signatures:**
